MFX-3530

MFX-3510

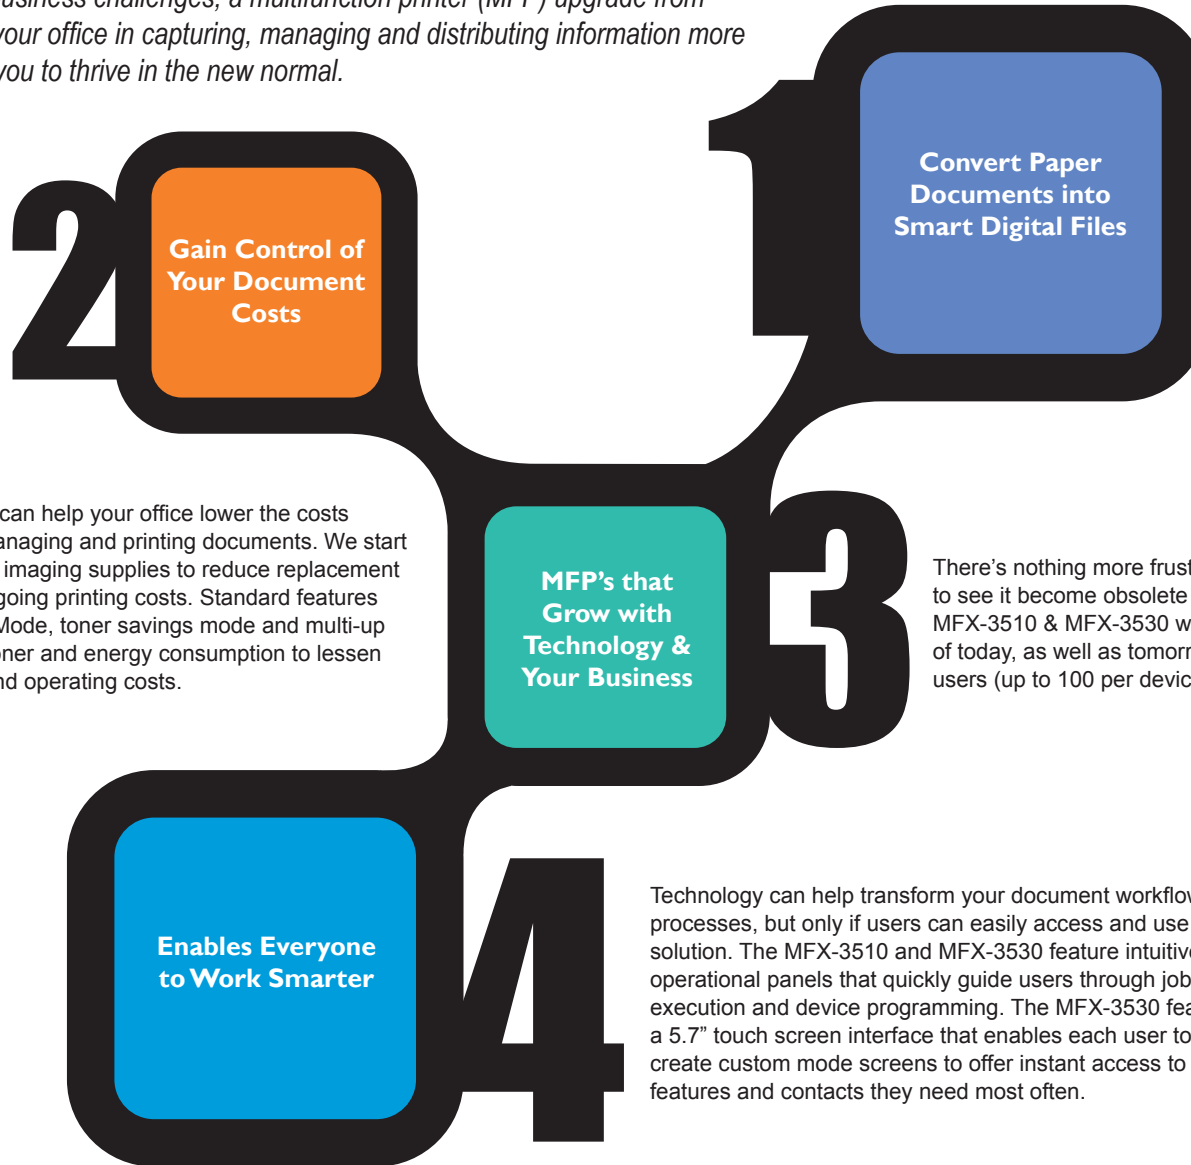

BUSINESS-CLASS DOCUMENT SOLUTIONS

How Can the Muratec MFX-3510 & MFX-3530 Help Your Office Work Smarter?

Your business is transforming. Your role, expanding and evolving. Doing more with less isn't just a passing trend, it's the new normal. Despite these challenges companies must maintain exceptional customer service levels, meet project deadlines and process information into systems that conform to new regulations and guidelines. While we can't address all of your business challenges, a multifunction printer (MFP) upgrade from Muratec can assist your office in capturing, managing and distributing information more efficiently, enabling you to thrive in the new normal.

The MFX-3510 & MFX-3530 can help your office lower the costs associated with capturing, managing and printing documents. We start with high-yield, cost-effective imaging supplies to reduce replacement frequency and lower your ongoing printing costs. Standard features such as duplex printing, EcoMode, toner savings mode and multi-up printing help reduce paper, toner and energy consumption to lessen both environmental impact and operating costs.

Utilize the MFX-3510 and MFX-3530 to quickly turn your paper documents into electronic files that can be e-mailed, stored in a PC folder, faxed or transferred to a cloud-based storage/workflow system.

There's nothing more frustrating than investing in technology, only to see it become obsolete as your business needs change. The MFX-3510 & MFX-3530 were designed to meet the business challenges of today, as well as tomorrow. As your company grows you can easily add users (up to 100 per device) for scanning, printing and general MFP use.

Technology can help transform your document workflow processes, but only if users can easily access and use the solution. The MFX-3510 and MFX-3530 feature intuitive operational panels that quickly guide users through job execution and device programming. The MFX-3530 features a 5.7" touch screen interface that enables each user to create custom mode screens to offer instant access to the features and contacts they need most often.

Complete Document Solutions

Faxing Solutions

- Business-class fax solutions include a blazing-fast 33.6 Kbps modem, 1,000 location address book, transmission archiving (for auditing), fax forwarding to e-mail / PC folders and transmission confirmation reporting.
- The MFX-3510 & MFX-3530 can integrate with a variety of popular fax server applications utilizing the optional e-mail gateway feature.
- Intuitive fax driver enables you to send faxes directly from a PC application. Easy access to your MFP address book, customizable cover pages and multi-location broadcasting is supported.

Document & Device Security Solutions

- Documents that are printed using the secure print feature are stored within machine memory for up to 24 hours. After 24 hours they are automatically wiped from the machine memory. No other documents are stored in the machine's memory.
- Machine settings can be quickly backed-up and restored by the IT administrator.
- Route inbound fax documents to an e-mail address or PC Folder.
- Require user log-in prior to gaining machine access.
- Create secure PDF's that require password entry prior to viewing (MFX-3530).
- Create an audit trail of device communication to record the details of outbound fax and e-mail transmissions (Muratec exclusive feature).

User-Friendly Operations

- The MFX-3510 features an intuitive 5-line LCD interface, 48 one-touch buttons for instant fax/e-mail transmissions and easy-to-navigate menus.
- The MFX-3530 features a 5.7" monochrome touchscreen that enhances the user experience.
- The MFX-3510 & MFX-3530 were designed with the busy workgroup in mind, meaning users can quickly and easily replenish paper cassettes, change toner & drum cartridges, clear paper jams and execute machine operations.
- The optional 2-bin output tray can separate print, copy or fax documents to create distribution-ready output.
- The My MFP mode enables each machine user to create a custom home screen that displays the features they most frequently access.
- Users can insert both A5 & A4 size documents into the document feeder and the device will correctly identify each size and produce output on the appropriate paper size (assuming both paper sizes have been loaded into the cassettes).

Printing Solutions

- Up to 35 page-per-minute output speed.
- Standard PCL5 / XL enables printing compatibility with a majority of operating systems and applications.
- Optional PostScript 3 printing enables compatibility with Macintosh operating systems.
- Up to (3) optional paper cassettes can be added to the MFX-3530 to provide high-volume print environments with additional paper capacity and instant access to multiple paper types when printing.

MFX-3510 / MFX-3530 Specifications

GENERAL

Print Speed (Simplex)	35 pages-per-minute
Print Speed (Duplex)	10 pages-per-minute
User Interface (3510 / 3530)	5-line LCD / 5.7" Touch Screen
Document Feeder Capacity	80-sheets
Duplexing Automatic Document Feeder	MFX-3530 only
Standard Paper Capacity	600-sheets (includes 100-sheet bypass tray)
Maximum Paper Capacity (3510 / 3530)	1,100 / 2,100 sheets
Cassette Paper Weight	60 - 90 g/m ²
Paper Loading (Cassette)	Face Up
Bypass Paper Weight	60 - 160 g/m ²
Paper Loading (Bypass)	Face Down
Output Tray Capacity	250-sheets
Output Position	Face Down
Duplex Printing	Standard
Dimensions (H x W x D) Weight (3510)	546 x 513 x 481mm / 22.0kg
Dimensions (H x W x D) Weight (3530)	546 x 513 x 509mm / 24.1kg
DHCP Compliant	Yes (Default On)
Ethernet Connection	Standard 10/100 BaseT, RJ-45 connection
Network Protocol	TCP/IP
Local Connection	Standard USB 2.0
System Memory	512 MB
Energy Save mode	Yes
User Accounting	Yes

COPY

Platen Glass	A4 (Max. 8.5" x 14")
First-Copy-Out-Time (Platen)	5 seconds
First-Copy-Out-Time (Document Feeder)	10 seconds
Warm-up Time (3510 / 3530)	27 seconds / 29 seconds
Paper Tray Selection	Automatic or Manual
ID Card Copy	Standard
Image Combination	2:1, 4:1
Zoom Ratio	25 - 400% (platen) / 25 - 100% (document feeder)
