

# Support for new Operating System

## Support for Windows Server® 2016

---

This driver and software are compatible with the following editions of Windows Server® 2016.

Windows Server® 2016 Datacenter  
Windows Server® 2016 Standard  
Windows Server® 2016 Essentials

The operation for Windows Server® 2016 is generally similar to Windows 10, however the following points are different.

### ■ **Opening the control panel screen**

Right click [Start] and select [Control Panel].

### ■ **Installing a printer driver via IPP**

It is generally similar to Windows Server 2012 and Windows Server 2012 R2.

## Support for macOS Sierra (v10.12)

---

This driver and software is compatible with macOS Sierra (v10.12).

The operation for macOS Sierra is similar to Mac OS X 10.11 El Capitan.
