

COMPACT, SIMPLE, CUSTOM-MADE

The MFX-1820 is probably the smartest system available at the moment. Due to its small dimensions the machine can be used as a desktop system as well as a console machine with three cassettes and cabinet.

Muratec like the machine is not only a copier. It offers printing as well as fax and scanning as standard. It covers the most important functions in every office environment.

The flexibility of this machine is extraordinary. Beside the standard functions the machine can be equipped with various options.

You want to save a lot of space in your archive and reduce your paper consumption? Use the duplex unit to print on both sides of a paper sheet. If you also want to copy both sides of a sheet without turning the sheet you can use the 50 sheet RADF.

Also the paper capacity is very extensible. There are two more paper cassettes which can be added to the machine. With this the paper capacity of the machine is extended to 800 sheets.

Network board and PCL controller are very important to add the system to your company LAN. While the network board enables network printing and network GDI scanning the PCL controller keeps your data traffic of your LAN low.

Customize your personal MFX-1820.

620mm

560mm full-scale

- Copy, Print, Fax & Scan
- 5 line LCD Display
- Paper format from A5 up to A3
- Up to 800 sheets paper capacity
- Duplex unit (optional)
- 50 sheet RADF (optional)

426mm

MODE SWITCH

Easy selection of copy, fax or scan with just one button.

5 LINE DISPLAY

The big 5 line LCD display is unique in its segment. It shows twice as much information as its competitors.

SOFT KEYS

Soft keys are programmable user keys. The most important functions can be programmed here, so it is as easy as possible for the user to use them.

INTERRUPT KEY

You have an urgent copy job but the machine is printing at the moment a big print job? Press the interrupt key to slot in your urgent job.

ENERGY SAFE MODE

We respect the environment. Due to this there is an energy save button on the panel to reduce the power consumption as much as possible.

ECOLOGICAL AND ENERGY SAVING

The MFX-1820 is not just the perfect partner for your daily business but also very environment friendly. The machine keeps the strict guidelines of Energy-Star as well as the special requirements of the German Blue Angel. With this the MFX-1820 does not only save money but also keep the environment in conscious.

UI Project

MURATEC's Usability Improvement (UI) Project makes it easy for users to operate our products.

ALL YOU NEED

GENERAL FEATURES

Printing/Copying speed 18 pages per minute
 Printing method LED
 Grey scales 256
 Paper feeder 1 x 250 sheet cassette (A5-A3, 60-90 g/m²), 50 sheet Bypass (A6-A3, 60-120 g/m²)
 Max.: 3 x 250 sheet cassette

Warm up time 20 seconds or less
 Display 5 lines LCD Display
 Simultaneous function Quad Access
 Interface Standard: USB
 Option: Ethernet 10/100 BaseT

Network protocol TCP/IP
 Operating systems Windows 2K, XP, XP 64, Vista, Vista 64, Win 7, Server 2003(x86/x64), Server 2008(x86/x64)

Dimensions 560 x 426 x 624 mm (BxHxD with platen cover and 1 cassette)

Weight 29,5 Kg (with platen cover and 1 cassette)

Power 220-240 VAC, 50/60Hz

COPY

RADF (optional) 50 sheets (A5-A3, 52-105 g/m²)

ADF (optional) 50 sheets (A5-A3, 52-105 g/m²)
