A4 SPECIALIST IN MISSION

Professional and fast paper output up to format A4: these are the strengthes of these two machines. The MFX-1950D and F-315 do not only offer excellent print quality but also very reasonable following costs.

The MFX-1950D is a full applicated multifunctional system which can copy, print, scan and fax as standard, also from the platen glas. This covers all needs of a modern office machine. Beside this standard functionality the machines also offers a duplex unit for double sided printing. This helps you not only to save space for your archive but also resources of the environment.

Due to the OfficeBrdige extension, our own developed network card, the machine has also the capability to be a small company server. You can scan documents to network folders, or send directly from the machine to e-mail addresses.

The F-315 on the other hand is a high performance business fax. It offers also the stand functionality of copying (from ADF), printing and scanning (from ADF). But its strengthes lie in the fax communication. Here the machine has capabilities to simplify your fax correspondence drastical. With this the machine is best positioned in an office with high volume fax usage. The very good cost per page helps you to save money.

UI Project

MURATEC's Usability Improvement (UI) Project makes it easy for users to operate our products.

COMPACT SOLUTIONS FOR EVERY OFFICE NEED

The MFX-1950D and F-315 were concepted for modern office environment. Both have a small, compact footprint and a design which fits seamlessly in every office.

The 19 pages per minute fast print engines guarantee fast processing of even big print and copy jobs. But the keypoints of these machines are their extended functionality.
While the MFX-1950D offers very helpful functions in every area, as a stable business fax machine the F-315 especially offers extended functions for the fax communication.

Save cost for single purpose machines, also in your home office. The All-in-one concept of these machines comes as standard and replaces up to 4 machines. But even though these machines satisfy every needs in a modern office.

Functions like fax forwarding to e-mail addresses or network folder offer great capabilities in optimizing your office processes.

OfficeBridge is as an optional upgrade for multifunctional devices in the Muratec range, including the MFX-1350D. Because OfficeBridge uses a web browser interface, it is completely independent of computer operating systems and network protocols, making it easy and economical to install. The use of a familiar web browser interface also makes OfficeBridge intuitive and simple to understand so users can get the benefits of OfficeBridge straight away with the minimum of training.

OfficeBridge is supplied for a single one-time cost, with no user licence costs or renewal charges, unlike some network fax and printing options, making OfficeBridge a very cost-effective solution for document network sharing and printing.
